## EXPERIENCE

### Universe Soft Care & Universe IT Institute (UITI), Merul Badda, Dhaka

Intern MERN Stack Developer  
August 2023- PRESENT.

## PROJECTS

### Abinash Foundation – Client Project

This is a real time client project which is made by Universe Soft Care and Universe IT Institute. This is an NGO typed project. I contributed to this project as a Frontend Developer. I'm sorry to say I couldn't share the project source code for security purposes.

### Bachelor Trip– Practice Project

Bachelor Trip is essentially a mess management system. which a user can create a mess or take membership of an existing mess. Obviously, he/she must be logged in for this. Almost everything a mess manager does can be done here.

**Github:** <https://github.com/fahadhossain24/my-mess>

**Live link:** <https://my-mess-e50e9.web.app>

### Medicine Park– Practice Project

Medicine Park is basically a pharmacy management system. Through which a user can manage his pharmacy by logging in. For example, new medicines can be stocked, he can search for medicines according to the customer's needs, if those medicines are available in stock, then he can add them to the selling cart. And the selling slip will print out.
